Verulamium Park, St Albans

We are hoping that the barriers are gone and the finishing touches to the long overdue cycle paths are completed by August.

Angerland Common Sports Pitches

The University has put in a planning application to build a clubhouse and sports ground on Angerland Common, South Way, Hatfield.

However we are extremely dismayed to see that there is no cycling access.

In addition, the development provides the ideal opportunity to join NCN12 south to the University Main Campus.

The WHBC Planning website <https://fastweb.welhat.gov.uk/welcome.asp> is open for comments until the 14th August.

Enter Planning Application S6/2013/1261/MA to take you to the details and comments box.

Support Road Justice

This month we are asking you to sign the CTC petition calling for improved justice for all road users. Police and Courts are not treating the victims of collisions seriously.

Summer in the Park

And on a lighter note, a 2.5min film from across the water.
